I. INTEGRATED GUIDANCE

Background

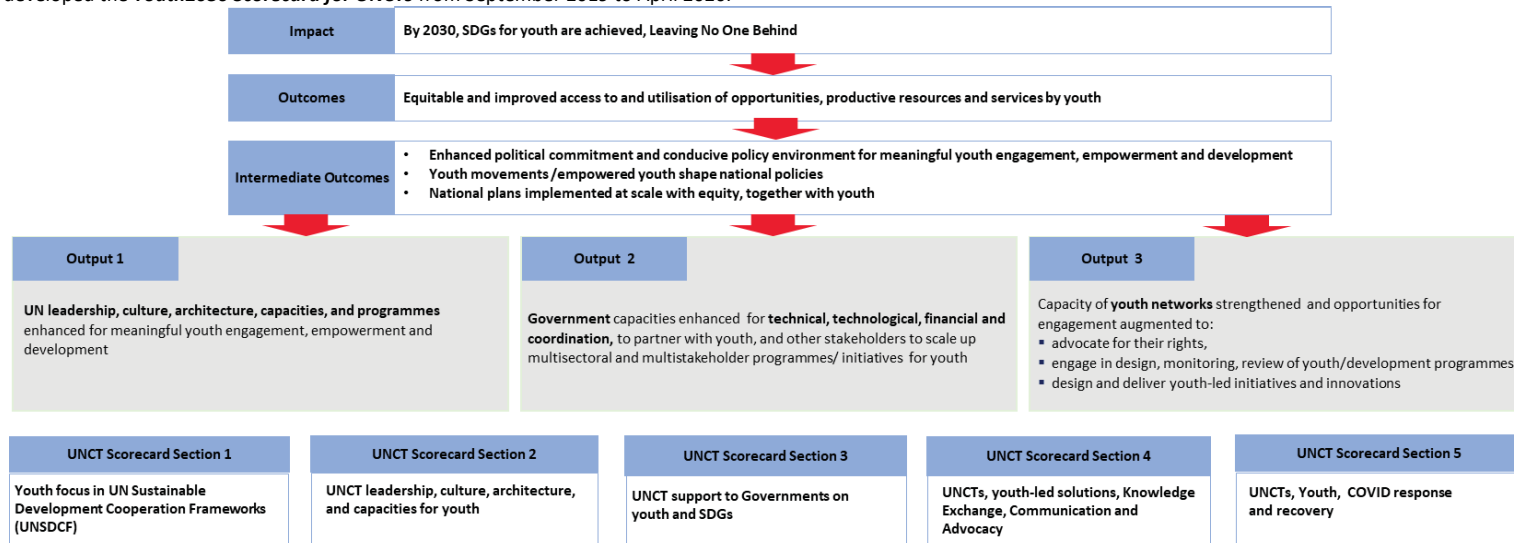

Youth2030, the UN’s system-wide strategy for and with youth, launched in 2018, by the Secretary-General, outlines achieving impact for youth, through joint action of the UN, working together with young people. The implementation of Youth2030 benefits from the strategic guidance of a **High-Level Steering Committee (HLSC)**, at the Assistant Secretary-General level together with young people, and chaired by the **Secretary-General’s Envoy on Youth**. The **Youth2030 Secretariat**, established in the **Office of Secretary General’s Envoy on Youth (OSGEY)**, supports the HLSC and the overall coordination of the implementation of the Youth Strategy. The HLSC is ably supported by a technical leadership team, the **Joint Working Group (JWG)**¹, consisting of focal points from various UN entities and youth networks. Guidance and tools for implementation and performance measurement are in a phase of accelerated development by the JWG.

Overview of the Youth2030 Scorecard for UNCTs

The Youth2030 Scorecard for UNCTs is a **strategic planning, performance measurement, and accountability tool** for joint action by United Nations Country Teams (UNCTs). A self-reporting tool, the Scorecard is structured to understand UNCT performance on **both foundational and programme priority areas** described in Youth2030, through a set of **19 indicators**². The indicators span both **i) working for youth and ii) working with youth**. The scorecard captures **working with youth at the UNCT level**, through a set of practical measures, drawing from well-laid down **principles of meaningful youth engagement** (*institutionally mandated, rights-based, safe, designated, resourced, transparent, accessible, voluntary, informative, with reciprocal accountability, and due consideration for diversity and inclusion*). While the scorecard is an important performance measurement tool, it is not set out to capture all the elements of Youth2030 implementation. Other mechanisms (additional in-depth or dip-stick surveys, secondary data analysis, periodic evaluations, etc.) will be deployed from time to time to understand implementation and impact. In addition, while the Scorecard for UNCTs reporting will provide an understanding of the status of **strategy implementation**, insights into core programming are beyond the scope of this tool.

Development of the Scorecard for UNCTs

Guided by the principles of meaningful youth engagement and drawing from several policy, programme and operational guidance documents³ and performance measurement tools⁴ in the UN system relevant to UNCTs and youth, the JWG conceptualized and developed the **Youth2030 Scorecard for UNCTs** from September 2019 to April 2020.

Based on a causality analysis and pathway of change, a simple results chain was drafted, and outputs detailed. The sections in the scorecard were built from the outputs, with the clear understanding that the sections are interconnected. Aligned to the foundational and priority areas in the youth strategy and in line with other scorecards in the UN Development System, (e.g., *UNCT-SWAP- Gender Equality Scorecard*), Key Performance Indicators for different sections of the Scorecard and the scoring methodology were developed. After several iterations, the Scorecard was test ready. In collaboration with the **United Nations Development Coordination Office**, the Scorecard was field-tested through a fully online exercise from July to September 2020, in **Uzbekistan, Ethiopia, and Costa Rica** - three countries designated as **Fast Track Countries** for accelerated action on the strategy. The Youth2030 Scorecard for UNCTs was finalised incorporating feedback from the field validation.

Structure of the Scorecard for UNCTs:

The final Scorecard document is organised in three parts i) an **integrated guidance** which sets out the outline and use of the scorecard, ii) an **indicator-scoring-resource matrix**, detailing the Key Performance Indicators, scoring system (Types, Thresholds for **RYG (Red-Yellow-Green)** rating), and ‘indicator-specific resources’ and iii) **annexes**

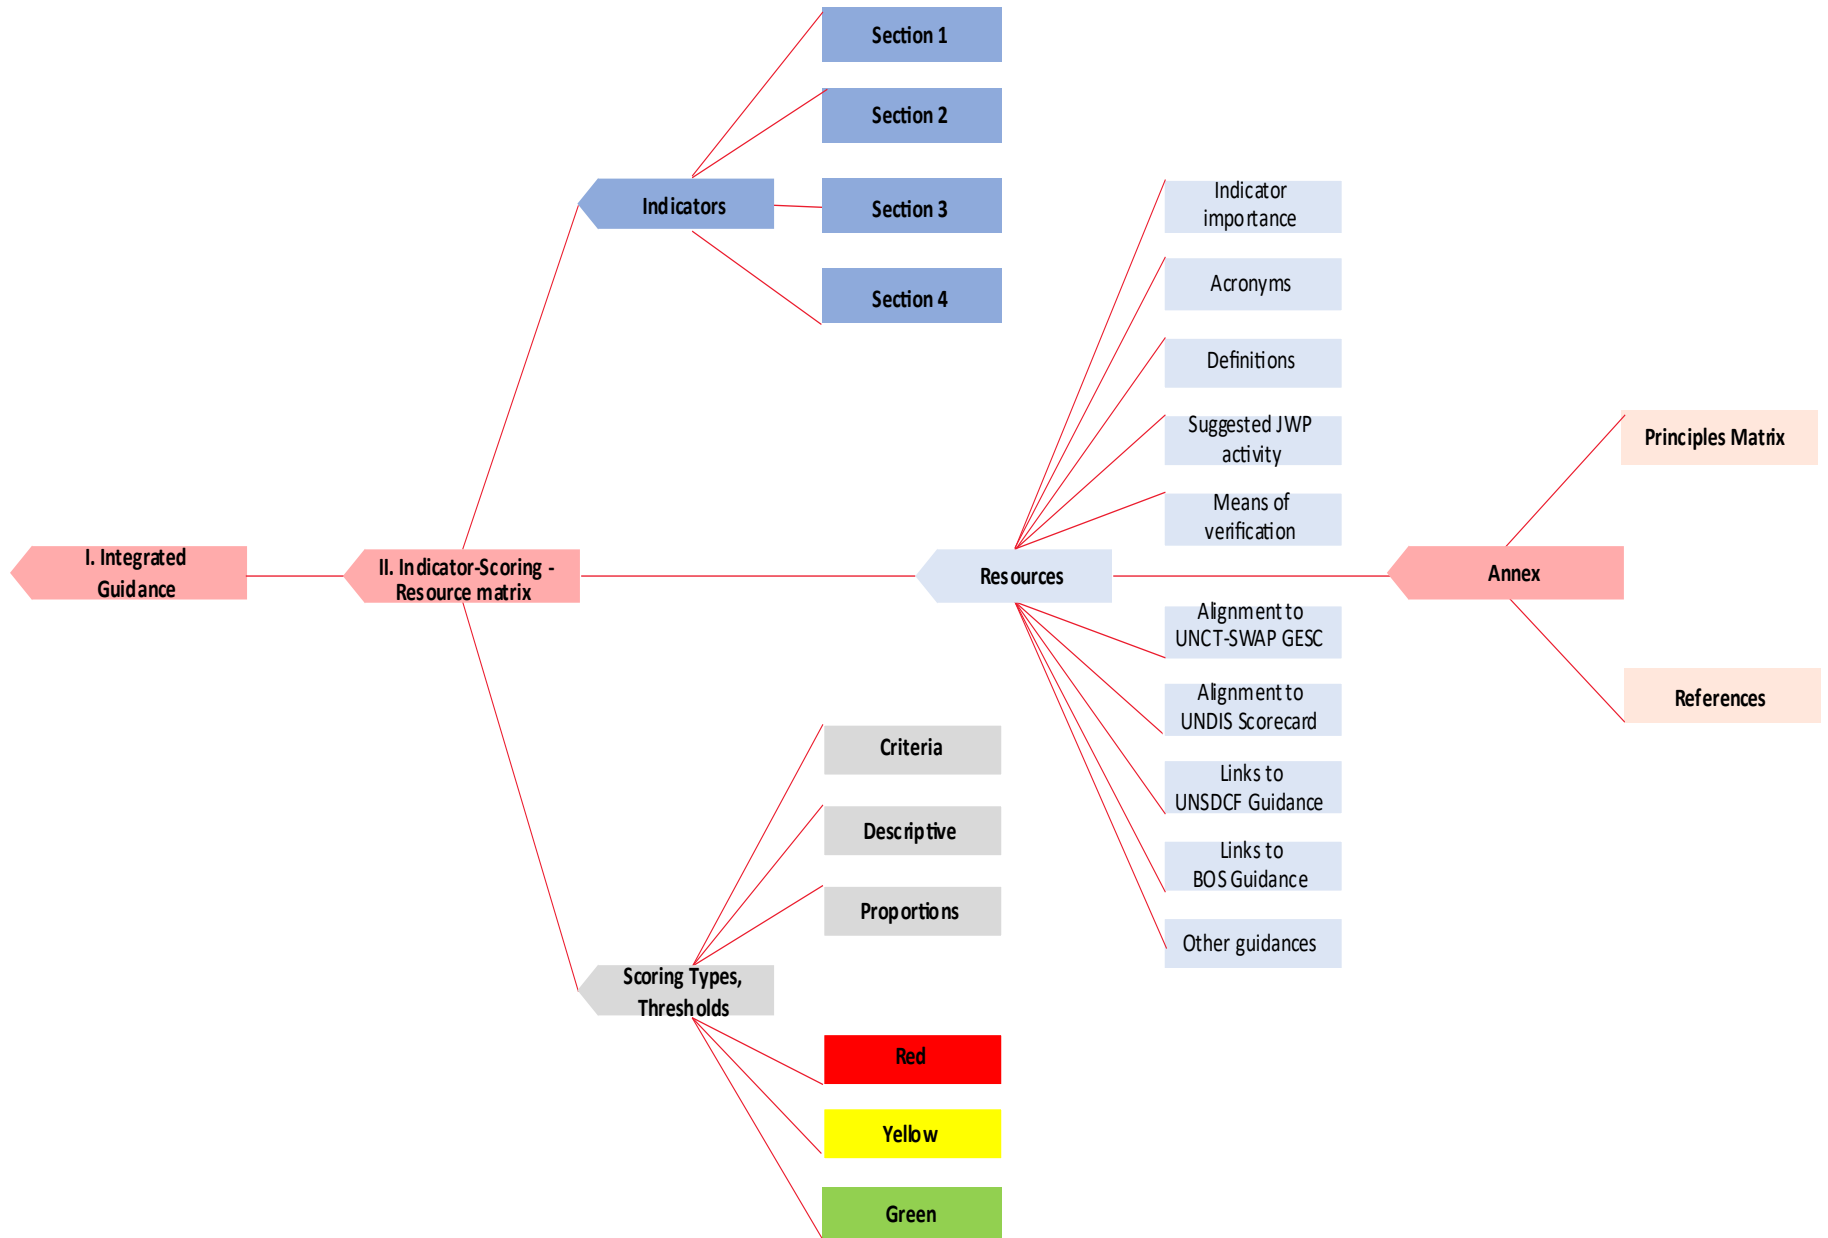

¹ UN entities (DMSPC, DPPA, ILO, IOM, OHCHR, OSGEY, UNAIDS, UNDCO, UNDESA, UNDP, UNESCO, UNFPA, UNICEF, UNIDO, UNODC, UN Women, WHO) and youth networks (IANYD Youth Caucus, ICMYO, MGCY, Young UN)

² The UNCT scorecard in 2020 included **20 KPIs** (KPI 20- UNCTs, youth, COVID response and recovery). Reporting on **KPI 20: COVID response and recovery** has been integrated into other KPIs from 2021. In the 2022 update of the scorecard, **KPI 20** has been retained for reference purposes only.

YOUTH2030 SCORECARD FOR UNITED NATIONS COUNTRY TEAMS

Indicators, Scoring and RYG (Red-Yellow-Green) Rating

- the Scorecard has a total of **19 indicators (2021 onwards: see footnote-2 on Page-1)**, organized in **four sections** (Table below).
- Each indicator is scored through a scoring system, which has two components: i) **Types of Scoring** and ii) **Thresholds for RYG (Red-Yellow-Green) Rating**
- Three types of scoring** for indicators are available i) **criteria-based** or ii) **proportions** or iii) **descriptive**. While the criteria and descriptions are structured, for scoring ‘proportions’, UNCTs will have the flexibility to choose and set the denominators, including for sector selection, based on country context.
- For each type of scoring, **thresholds for performance rating** are available as a three-point RYG scale (**Red- Getting ready; Yellow - Moving forward; Green- At milestone**). Based on the thresholds met, the RYG rating will be generated.
- Scoring for 16 of the 19 indicators is simple – the indicators have only one score; Four (4) indicators measure two or more elements and have multiple scores – Indicator #3, #4, #12 have 2-scores; The indicator #6 on meaningful youth engagement has 5-scores. In addition, a few indicators have a provision for additional qualitative analysis, which are not included in the rating (e.g., (#6, #19)
- It is expected that by 2024, all UNCTs have achieved a green rating for ≥80% of Key Performance Indicators.**

Scorecard use in UNCTs

- Youth2030 implementation emphasizes **joint, coherent UN programming for youth**, in line with the vision of UN Reform.
- The Scorecard is for use by various **UN Country Teams** involved in design, implementation, reporting of programmes/initiatives for and with youth, including the Results/Thematic Groups on youth, BOS, RCO and others. Ideally, the scorecard, is to be used by **UN Country Teams together with young people**, both within and outside the organization. UNCTs are encouraged to set up mechanisms/ processes that are suitable for their contexts, document, and report best practices on working together with young people.
- The **indicator-specific resources** in the indicator-scoring-resources matrix has several resources for UNCT teams for planning, implementation and reporting
- The Scorecard has been adapted for **annual UNCT reporting** in the UNSDG IMS; indicators are reflected as questions and scoring criteria (and sector selection) as options for selection in the IMS system.
- All joint programming activities** on Youth will be reported annually, through the UNSDG IMS.
- In coordination with UNCT's Youth Task Force/thematic groups/ BOS teams, the M&E Focal point in RCO will be responsible for reporting** in the UNSDG IMS/UN INFO.
- The first IMS reporting in 2020 will be used for establishing the **Youth2030 baseline** for UNCTs.
- The reported data in the IMS will be linked to a **dashboard** with automated analytics, for **visualization of scores and comparison of time trends and performance across reporting units**. The dashboard will be available in the website of the **Office of Secretary General's Envoy on Youth (OSGEY)**, <https://www.un.org/youthenvoy/>.
- It is expected that the routine use of the Scorecard by UNCTs will allow identification of gaps and systemic improvements in programming for and with young people.

YOUTH2030 SCORECARD FOR UNITED NATIONS COUNTRY TEAMS

Indicator specific resources- 3 of 5 - Definitions		
Term	Definition	Source
Common country analysis (CCA)	The UN CCA is the UN system’s independent, impartial and collective assessment (i.e., a description of a country situation) and analysis (i.e., a description of causes and their implications) of a country situation for its internal use in developing the Cooperation Framework. It examines progress, gaps, opportunities and bottlenecks vis-à-vis a country’s commitment to achieving the 2030 Agenda, UN norms and standards, and the principles of the UN Charter, including as reflected in the Cooperation Framework Guiding Principles.	https://unsdg.un.org/sites/default/files/2019-10/UN-Cooperation-Framework-Internal-Guidance-Final-June-2019_1.pdf
Fairness and Quality of internships	<p>Internships: No generally accepted definitions, whether for legal or other purposes; the EU uses the term traineeships for the same concept. For the purpose of this document, the following description is used : An internship is a form of <i>work-based learning (WBL)</i>. WBL includes apprenticeship and other more formal training programmes, as well as internships and essentially a form of work experience.</p> <p>Working definition (ILO): “an internship is an arrangement for the performance of work within a business or organisation, a primary purpose of which is to gain experience, skills and/or contacts that will assist the worker to gain employment or other work opportunities in the future, but which does not seek in a structured way to provide all the skills needed for a particular occupation.” (Stewart et al., forthcoming).</p> <p>Currently no agreed upon definitions of fairness and quality of internships. The documents in the references provide an indication of ongoing work in this area. Updates forthcoming in short to medium term.</p>	<p>https://www.ilo.org/wcmsp5/groups/public/---ed_emp/documents/publication/wcms_637362.pdf</p> <p>https://www.unjuu.org/sites/www.unjuu.org/files/jiu_rep_20</p> <p>https://www.ilo.org/wcmsp5/groups/public/---ed_emp/documents/publication/wcms_629777.pdf</p> <p>https://prospera-consulting.com/wp-content/uploads/2020/10/Hempel-Pantelic-Framework-for-Quality-Internships.pdf</p>
Joint Programmes and Joint Programming	A joint programme is a set of activities contained in a joint workplan and related Funding Framework, involving two or more UN entities contributing to the same Cooperation Framework outputs. Pooled funding or other funding mechanisms can fund joint programmes and other stakeholders can be engaged as implementing partners. Under joint programming, UN organizations and national partners collectively prepare, implement, monitor and evaluate development activities aimed at achieving the 2030 Agenda and other international and regional commitments.	https://unsdg.un.org/sites/default/files/2019-10/UN-Cooperation-Framework-Internal-Guidance-Final-June-2019_1.pdf
Meaningful Youth Engagement	Please refer to Annex 1 of 2	
North-South, South-South and triangular cooperation plans	North-South cooperation is the most traditional type of cooperation – it occurs when a developed country supports economically or with another kind of resources a less favored one, for example, with financial aid during a natural disaster or a humanitarian crisis. South-South Cooperation is a process whereby two or more developing countries pursue their individual and/or shared national capacity development objectives through exchanges of knowledge, skills, resources and technical know-how and through regional and interregional collective actions, including partnerships involving Governments, regional organizations, civil society, academia and the private sector, for their individual and/or mutual benefit within and across regions. South-South cooperation is not a substitute for, but rather a complement to, North-South cooperation. Triangular Cooperation involves Southern-driven partnerships between two or more developing countries supported by a developed country(ies)/or multilateral organization(s) to implement development cooperation programmes and projects.	<p>https://unsouthsouth.org/about/about-sstc/</p> <p>https://www.un.org/development/desa/en/news/intergovernmental-coordination/south-south-cooperation-2019.html</p>
Policy Coherence for Sustainable Development	Policy tool to integrate the economic, social, environmental and governance dimensions of sustainable development at all stages of domestic and international policy making. It aims to increase governments’ capacities to achieve the following objectives: Foster synergies across economic, social and environmental policy areas; Identify trade-offs and reconcile domestic policy objectives with internationally agreed objectives; and Address the spill overs of domestic policies	https://www.oecd.org/governance/pcsd/Note%20on%20Shaping%20Targets.pdf
UN Sustainable Development Cooperation Framework	The Cooperation Framework (CF)—an agreement between the UN and the host government—determines and reflects the UN development system’s contributions in the country and shapes the configuration of UN assets required inside and outside the country. It is an instrument to implement a multi-year engagement that evolves based on country context and priorities and is squarely aimed at supporting countries’ SDG achievement. The CF drives UN strategic planning, funding, implementation and monitoring, learning, reporting and evaluation, all of which are undertaken with the host government and partners.	https://unsdg.un.org/sites/default/files/2020-01/In-Brief-UN-Sustainable-Development-Cooperation.pdf
UNCT Baseline for Youth2030	The starting point or the benchmark to measure progress in Youth2030 implementation will be the scores of the indicators (Section 1 to Section 5 of the Youth2030 Scorecard for UNCTs) established by UNCTs in the year 2020.	
Youth	Aged 10 to 24 years. Noting that there is no universally agreed international definition of youth and while recognizing that the UN Secretariat for statistical purposes defines ‘youth’ as those persons between the ages of 15 and 24 years, this Strategy considers other definitions in use by Agencies, Programmes and/or Member States without prejudice.	https://www.unyouth2030.com/files/ugd/b1d674_9f63445fc59a41b6bb50cbd4f800922b.pdf

YOUTH2030 SCORECARD FOR UNITED NATIONS COUNTRY TEAMS

Annex - 1 of 2- Principles matrix-Meaningful Youth Engagement		
PRINCIPLES OF MEANINGFUL YOUTH ENGAGEMENT	DESCRIPTION	SCORECARD FOR UNCTS CRITERIA
Institutionally Mandated	In the context of the UN, the imperative to engage in any initiative/avenue should be formally enshrined as a requirement in its rules of procedure or modalities through wording that makes it clear that the 'youth' in the conversation have an equal say in any decision. This is critical to prevent an ad hoc approach and/or be entirely dependent on the prerogative of the engaging party. * <i>*Major Group for Children and Youth - General Principles and Barriers for Meaningful Youth Engagement at the United Nations</i>	1. Institutionally mandated: UNCT official statement/guidance on commitment to meaningful youth engagement available, recognizing the agency of youth. <i>(The statement describes: •the principles of meaningful youth engagement; •how each principle will be operationalised by the UNCT (reservation, selection, appointment, onboarding, funding, safety and protection, etc), including who, when and how youth will be engaged; •Ensure a dedicated and safe space for young people to input/ feedback into UNCT work (UNCT management team structures/ YABs/ YSBs/YAC/ Equivalent) •Clear ToR for youth groups for the engagement/co-shaping UN work)</i>
Rights-Based and Safe	Young people are informed and educated about their rights and empowered to hold duty bearers accountable for respecting, protecting, and fulfilling these rights. All adults and those in positions of authority working directly or indirectly with young people in relation to issues at every level have a responsibility to take every reasonable precaution to minimize the risk of violence, exploitation, tokenism, or any other negative consequence of young people's participation. * <i>*Global Consensus Statement - Meaningful Adolescent and Youth Engagement</i>	2. Rights-based and Safe: Policy on rights of young people who are engaged and their protection, available
Designated	Young people should not be made to compete with other stakeholders, parties or groups for space in the modalities and process of engagement. Specific designated/reserved seats are to be made available in mechanisms through which they engage. * <i>*Major Group for Children and Youth - General Principles and Barriers for Meaningful Youth Engagement at the United Nations</i>	3. Designated: Reserved seats for gender-balanced youth representation in UNCT management team available and/or UNCT mandated Youth Advisory Boards (YAB) or Youth Sounding Boards (YSB) that feed into UNCT Management structures
Resourced	Engagement is a right, and young people should not have to spend out of pocket for the realisation of this right. Arranging the budget for the engagement of young people should be the obligation of the engaging entity/entities. * <i>*Major Group for Children and Youth - General Principles and Barriers for Meaningful Youth Engagement at the United Nations</i>	4. Resourced: Ear marked, pooled funding available to support youth participation in UNCT meetings/ YAB or YSB/ UN programmes-initiatives
Transparent, Accessible and Voluntary	Young people are provided with full, evidence-based, accessible, age-appropriate information which acknowledges their diversity of experience and promotes and protects their right to express their views freely. There is a clear and mutual understanding of how young people's information, skills, and knowledge will be shared, with whom, and for what purpose. Young people must not be coerced into participating in actions or expressing views that are against their beliefs and wishes and must at all times be aware that they can cease involvement in any process at any stage. * <i>*Global Consensus Statement - Meaningful Adolescent and Youth Engagement</i>	5. Transparent, Accessible, and Voluntary: Selection and appointment of youth networks to represent in UNCTs based on open call/ Request for Expression of Interest, available in local languages and accessible to young people with disabilities
Informative	Provide engaged youth with clear, accessible, diversity-sensitive and age-appropriate information about their role. <i>*UNESCO/IANYD: Meaningfully engaging with youth - Guidance and training for UN Staff</i>	6. Informative: Structured onboarding/briefing of selected youth groups done; (clearly set expectations/ outcomes of engagement; describe roles, processes, content; outline their right to discontinue at any stage of the process, safety)
Accountable	Explain to youth how their inputs are used, interpreted and have influenced outcomes with transparency, establishing a communication feedback loop* <i>*UNESCO/IANYD: Meaningfully engaging with youth - Guidance and training for UN Staff</i>	7. Reciprocal accountability 7.a. Accountability of youth to UNCT: Documentation (audio/video/written) on how the youth representatives in YAB/YSB/UNCT consulted with wider youth constituencies, including young women's groups, throughout the engagement period 7.b. Accountability of UNCT to youth: Feedback provided to youth on how their inputs are used, interpreted and have influenced outcomes
